

THE POWERFUL YOUNG PROJECT

# Help Kids Learn Better and Faster

A presentation by

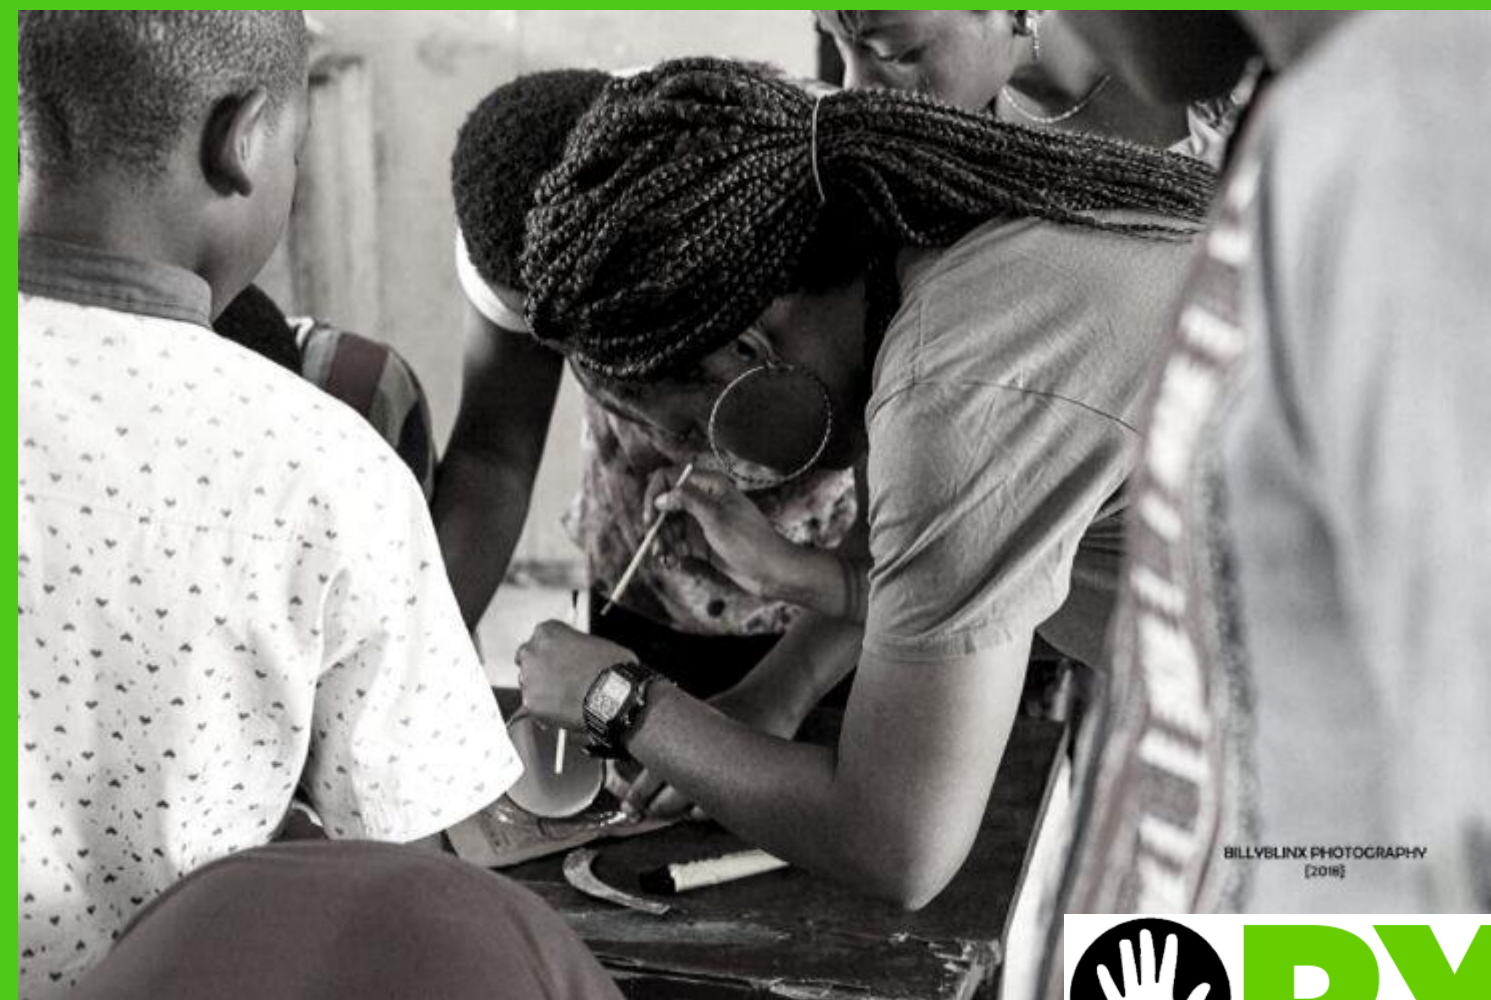

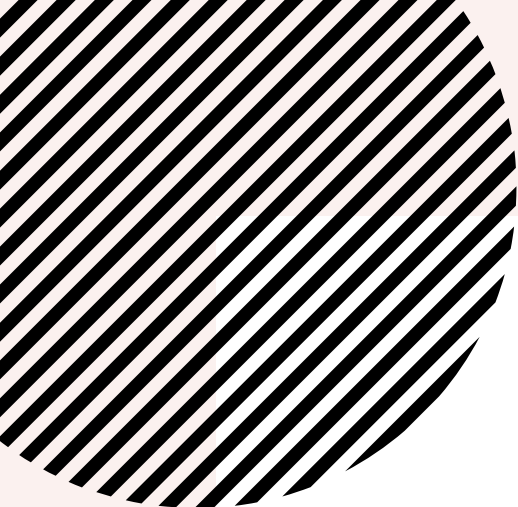

## WHO ARE WE?

The Powerful Young Project (PYP) is an initiative that aims to inspire, nurture and promote excellence in young people. We are passionate about education, therefore we organise free lessons for public primary school students in Festac Town, Nigeria to prepare them for the National Common Entrance Examination (both Federal and State).

We also prepare them for life after school through vocational learning opportunities and internships, during their summer holiday. This project aims to promote the learning of applicable life skills needed for a successful future and impacting their nation at large. We are a group of passionate volunteers who have consistently worked hard to achieve this for 4 consecutive successful years.

# BASIC UNDERSTANDING OF MATHS IS NECESSARY FOR THE AVERAGE STUDENT AND MORE IMPORTANTLY IS THE ABILITY TO READ.

Several reading tests administered by PYP, to about 200 students yearly have shown that 30% fall below the grade 2 level of reading with 86% below the grade 6 level of reading.

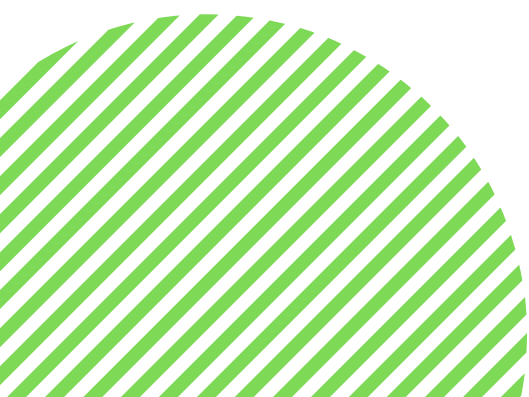

# HELLO CLASSES

**MAKING LEARNING FUN AND IMPACTFUL**

We are offering grade 6 students with grade 1 or 2 level of reading and mathematical ability special HelloEnglish and HelloMath classes.

**FOR STARTERS, PYP HAS ENROLLED 60 GRADE SIX STUDENTS FOR A DURATION OF SIX MONTHS FROM MARCH TO SEPTEMBER**

- Students are being provided with a focused tutorial on Mathematics and/or English language
- Students are taught in small groups by HelloGuides depending on their area of weakness
- HelloClasses will help bring them up to speed within six months.

Fun Hack

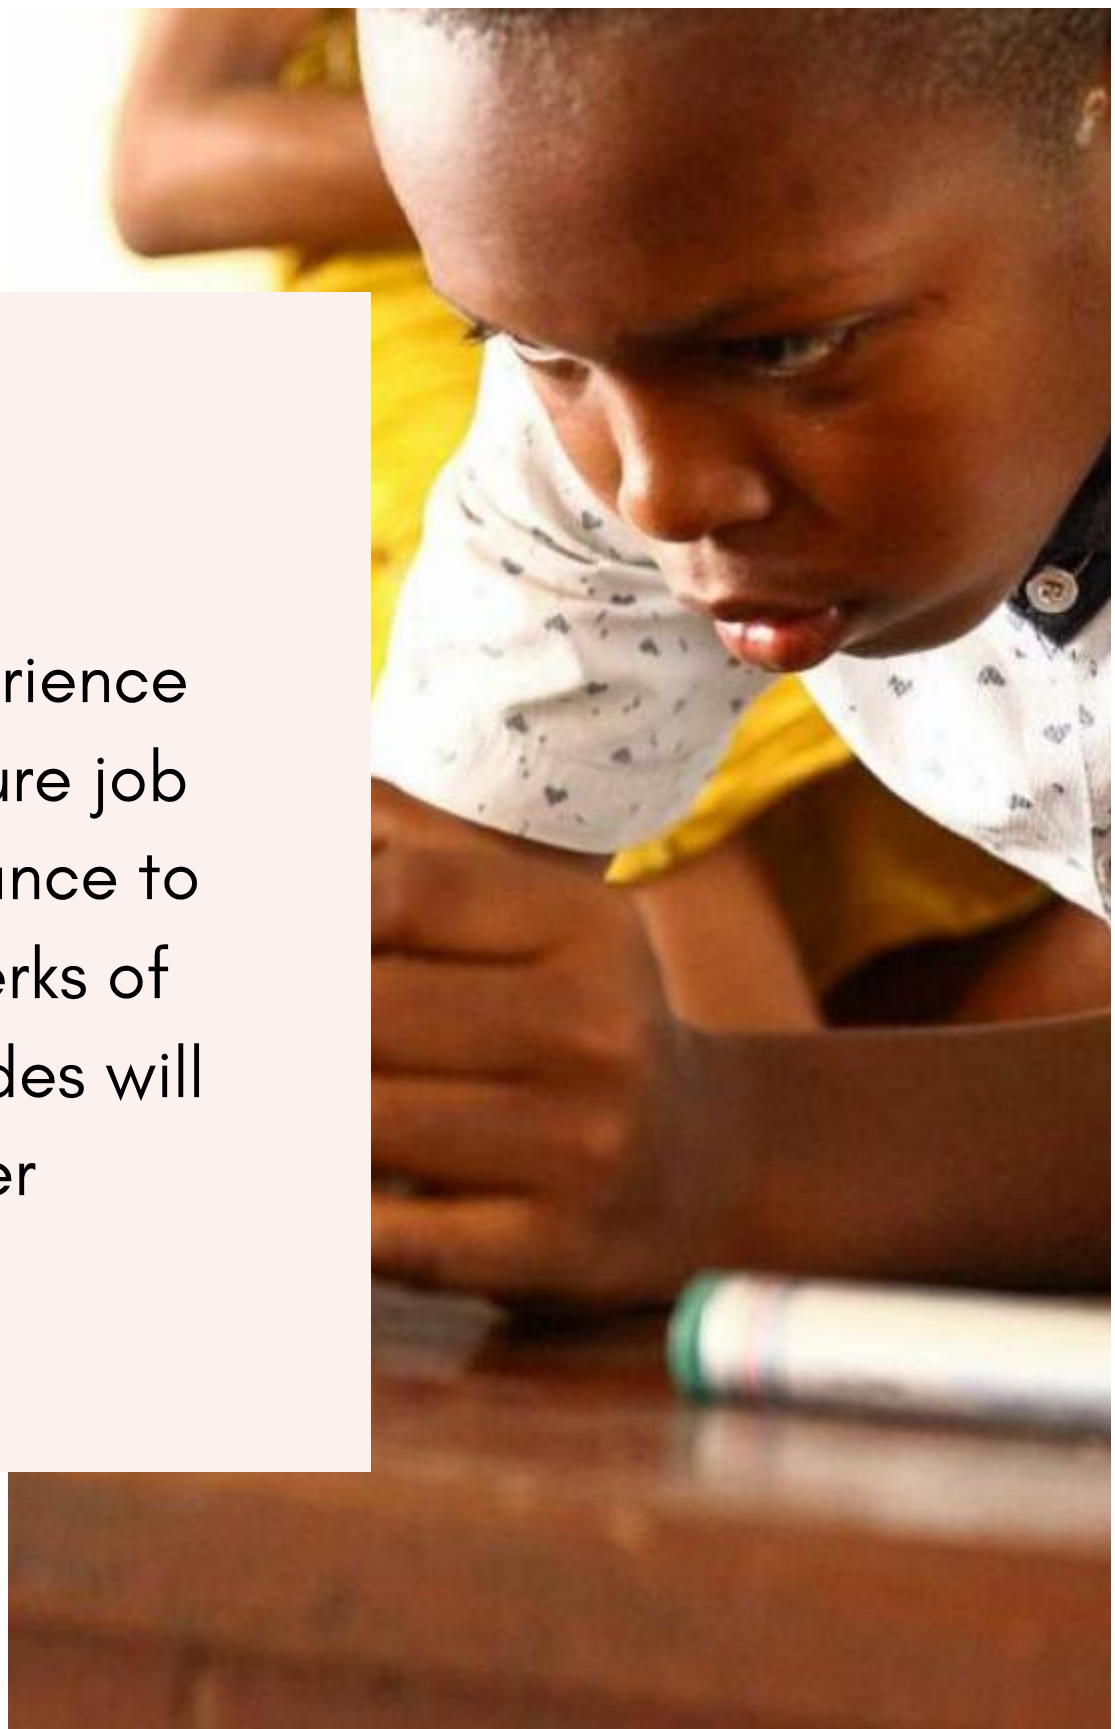

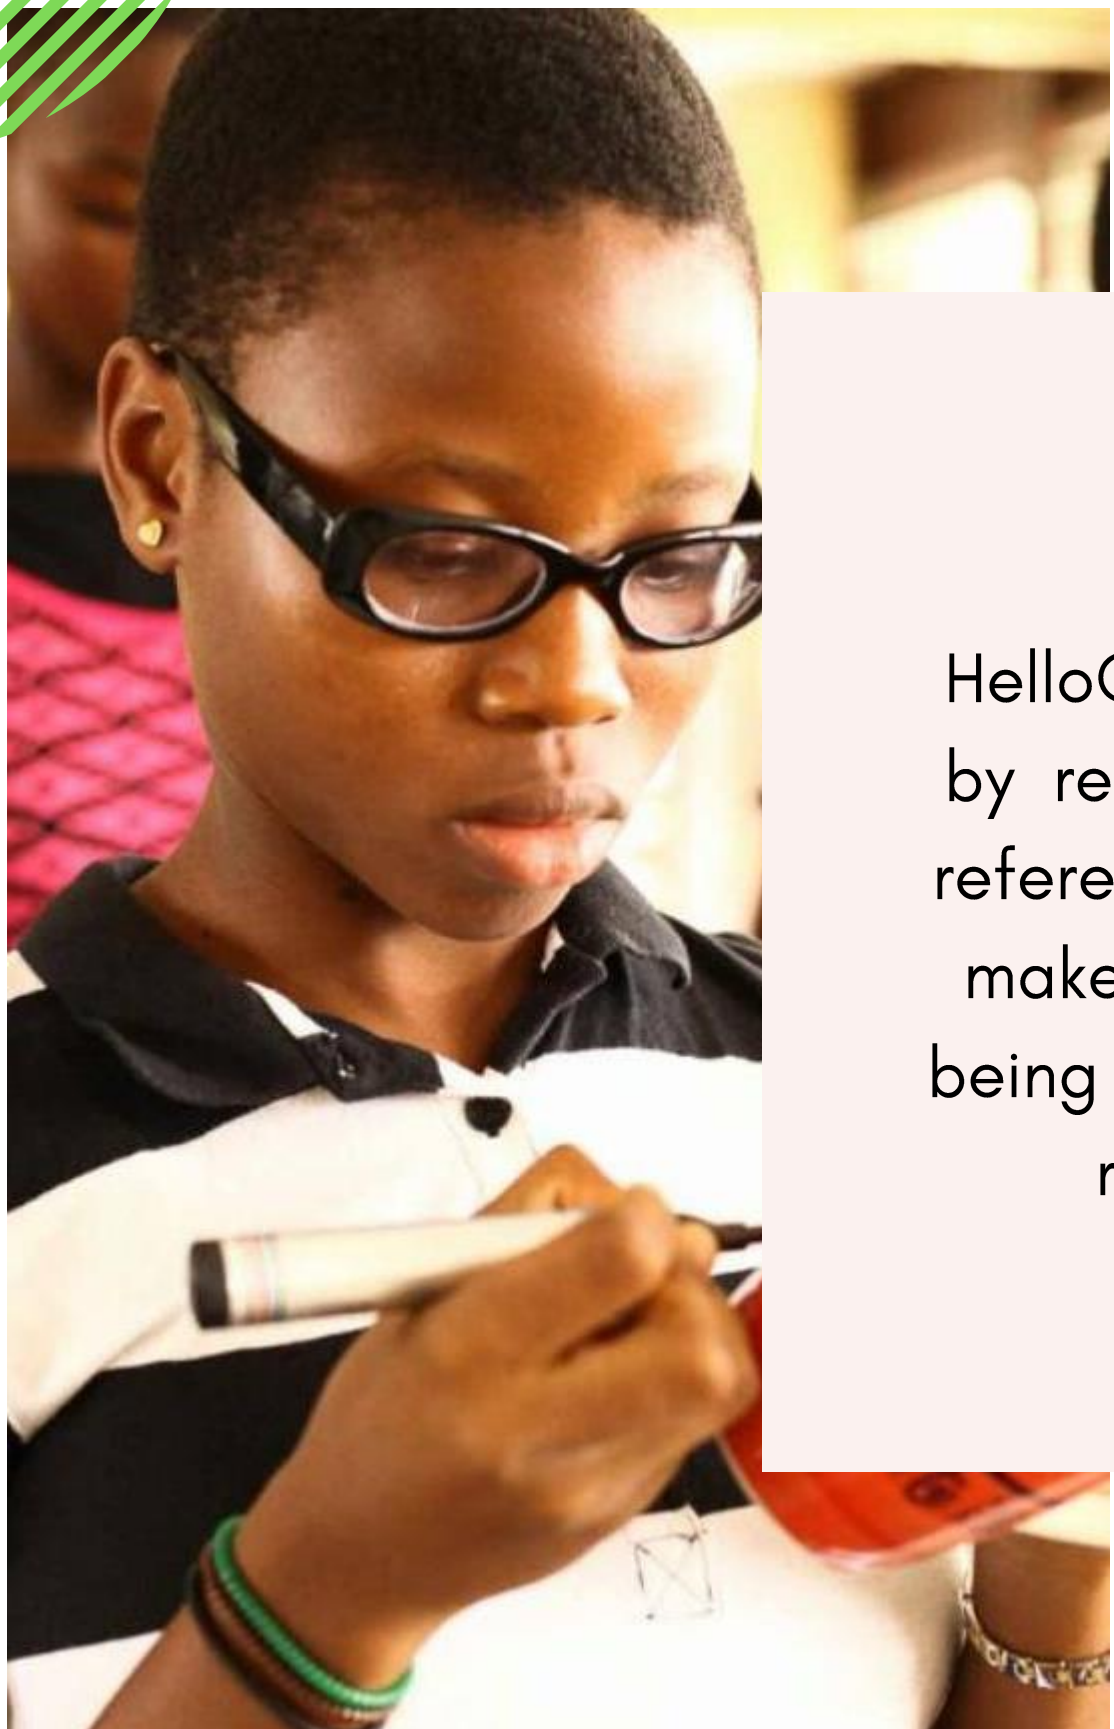

**PYP**

In our continuous bid to enhance potential of young people, We introduced an internship program for senior high school students to become HelloGuides, serving as tutors to the younger students with poor mathematical or English abilities.

## LEARNING IN ACTION

HelloGuides benefit from the internship experience by receiving applicable leadership skills, future job references, a certificate of mentorship, a chance to make a huge impact to society and other perks of being a part of the PYP community. HelloGuides will receive monthly stipends which will cover transportation and feeding,

# How It Works .

## TEAMS

Students and HelloGuides are grouped into teams of 5:1. We have discovered from our larger tutorial program that students learn better and faster when they collaborate in smaller groups.

## OUR METHOD

Students are trained using the PYP Buddy System where they learn and practice Maths or English collaboratively while their Guide introduces the subject topic and helps them through difficulties.

## GOAL SETTING

Students together with their Guide set monthly goals which we use to review their progress

## HOW MUCH?

The HelloClasses are free as they are for students in the public schools enrolled in the PYP program who cannot afford quality education.

# HOW YOU CAN HELP

## FACTORS FOR SUCCESS

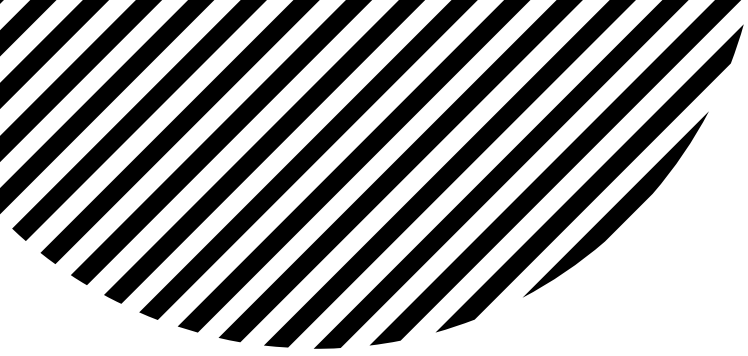

### MONTHLY SPONSORSHIP

We invite you to support this cause by sponsoring a student's HelloClass. Funds will cover stipends for HelloGuides and cost of learning materials for 6 MONTHS. You can make a lasting impact by sponsoring at least ONE Child.

**N2000 (\$6) a month (1 Child)**

**N12,000 (\$36) bulk (1 Child)**
